LinkedIn | GitHub | Seeking January 2027 co-op

Digital Media master's student combining UX/UI design, frontend development, and Unity prototyping. Interested in product design, interaction design, and game UX/UI.

SKILLS

Design: Figma, wireframing, prototyping, user flows, information architecture, heuristic evaluation, usability testing

Development: HTML, CSS, JavaScript, React, Node.js, D3.js, Git | **Creative practice:** Unity prototyping, AI-assisted production

EDUCATION

Northeastern University Expected Dec 2027
Master of Professional Studies, Digital Media | Vancouver, BC

- Relevant coursework: Usability and Human Interaction, Game Design Fundamentals, UX/UI Design, Web Development, Data Visualization.

Guru Nanak Dev University May 2018
Bachelor of Technology, Computer Science and Engineering | Punjab, India

EXPERIENCE

Freelance Web Designer and Developer Jun 2026 – Present
Self-employed | Metro Vancouver, BC

- Restructured Hair by Gurbina's website around its full salon service offering and booking journey.
- Connected booking calls to action, added mobile contact access, and converted 24 site images to WebP.

Assistant Team Lead / Machine Operator 2023 – 2025
Honda of Canada Manufacturing | Alliston, ON

- Supported production-line operations and team coordination in a robotics manufacturing environment.

Full-Stack Developer Jul 2022 – Aug 2023
Div Edge Technologies | Mohali, India

- Built responsive React components and worked with cross-functional teams through Agile development cycles.

Web Developer Aug 2018 – Dec 2021
Ops Solutions Pvt. Ltd. | Chandigarh, India

- Developed responsive websites using semantic HTML and ARIA; applied lazy loading, minification, and DOM tuning.

SELECTED PROJECTS

Last Delivery | Unity graybox prototype Oct 2026
Personal academic project, DGM6670 | Playable prototype

- Explores parcel handling, timed gates, checkpoint recovery, and clear player-state feedback in a desktop browser.
- Developed with AI assistance for ideas, coding, and debugging; preparing the prototype for human feedback.

Soap Panic / Stack & Splat | Unity experiments Oct 2026
Personal prototypes | Local Mac builds

- Explore slippery movement, balance, risk/reward, and quick retries; developed with AI assistance.

Adaptive Legibility | Interface prototype Jun 2026
Northeastern University | Three-person team

- Collaborated on an interactive prototype exploring adaptive opacity and text contrast on translucent interfaces.

Compass Card | Usability evaluation May 2026
Independent academic case study

- Identified eight usability issues across desktop and mobile using Nielsen's heuristics and proposed three redesigns.
